### Financial Power of Attorney

Appoint someone to handle your financial affairs and make decisions on your behalf if you become incapacitated or unable to manage your finances yourself.

### Medical Power of Attorney

Appoint someone to make healthcare decisions on your behalf if you become incapacitated and unable to make those decisions yourself.

### Deed + Mobile Notary

Transferring ownership of your real property into a living trust by deeding it to yourself as the trustee allows the property to avoid probate and pass directly to the trust's beneficiaries upon your death. **And a mobile notary who travels to meet our clients at their preferred location, such as a home, office, or other venue, to execute the estate plan documents and provide notary services with added convenience.**
